

The American Journal of CLINICAL NUTRITION

Official Journal of The American Society
for Clinical Nutrition, Inc

MAY 1997 • VOLUME 65 • NUMBER 5

ISSN 0002-9165

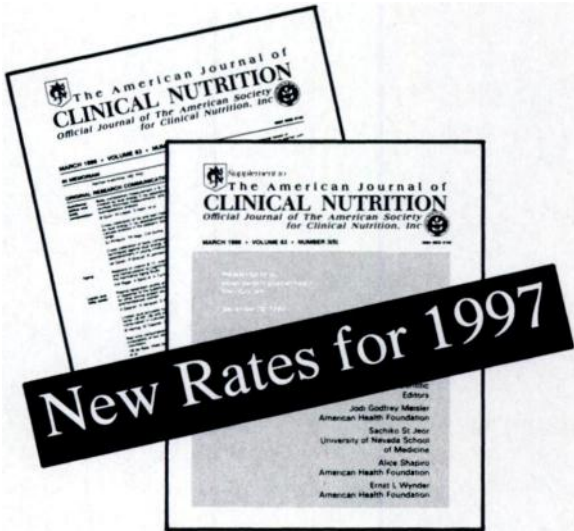

ORIGINAL RESEARCH COMMUNICATIONS

Nutritional status and body composition	Peculiar body composition in patients with Prader-Labhart-Willi syndrome. <i>P Brambilla et al</i> See editorial by GB Forbes, page 1540. 1369	
Energy metabolism	Sensory properties of a nonabsorbable fat substitute did not affect regulation of energy intake. <i>BJ Rolls et al</i> 1375	
	Growth hormone or insulin-like growth factor I increases fat oxidation and decreases protein oxidation without altering energy expenditure in parenterally fed rats. <i>H-C Lo et al</i> 1384	Nutrition and disease
Obesity and eating disorders	Evidence for the incompatibility of age-neutral overweight and age-neutral physical activity standards from runners. <i>PT Williams</i> 1391	Circulating antioxidant concentrations in children with inflammatory bowel disease. <i>EJ Hoffenberg et al</i> 1482
Aging	Effects of inulin and lactose on fecal microflora, microbial activity, and bowel habit in elderly constipated persons. <i>B Kleessen et al</i> 1397	Antioxidant flavonols and ischemic heart disease in a Welsh population of men: the Caerphilly Study. <i>MGL Hertog et al</i> See editorial by MB Katan, page 1542. 1489
Lactation and infant feeding	Effects of age at introduction of complementary foods to breast-fed infants on duration of lactational amenorrhea in Honduran women. <i>KG Dewey et al</i> 1403	Reduced rates of metabolism and decreased physical activity in breast cancer patients receiving adjuvant chemotherapy. <i>W Demark-Wahnefried et al</i> 1495
Lipids and fatty acids	Satiety power of dietary fat: a new appraisal. <i>A Himaya et al</i> 1410	Tolerance to the daily ingestion of two cups of milk by individuals claiming lactose intolerance. <i>FL Suarez et al</i> 1502
	Stearic acid, trans fatty acids, and dairy fat: effects on serum and lipoprotein lipids, apolipoproteins, lipoprotein(a), and lipid transfer proteins in healthy subjects. <i>A Aro et al</i> 1419	Cornstarch regimens for nocturnal treatment of young adults with type I glycogen storage disease. <i>Jl Wolfsdorf and JF Crigler Jr</i> 1507
Carbohydrates	How the degree of unsaturation of dietary fatty acids influences the glucose and insulin responses to different carbohydrates in mixed meals. <i>J-L Joannic et al</i> 1427	A low-protein diet improves insulin sensitivity of endogenous glucose production in predialytic uremic patients. <i>V Rigalleau et al</i> 1512
Vitamins	Use of a new vitamin C-deficient diet in a depletion-repletion clinical trial. <i>J King et al</i> 1434	Energy and protein metabolism during recovery from malnutrition due to nonneoplastic gastrointestinal disease. <i>F Carbonnel et al</i> 1517
Minerals	Validation of a simple, manual urinary iodine method for estimating the prevalence of iodine-deficiency disorders, and interlaboratory comparison with other methods. <i>SL May et al</i> 1441	Effect of psyllium in hypercholesterolemia at two monounsaturated fatty acid intakes. <i>DJA Jenkins et al</i> 1524
	Mechanisms of aluminum absorption in rats. <i>MW Whitehead et al</i> 1446	Inflammatory mediators in children with protein-energy malnutrition. <i>RW Sauerwein et al</i> 1534
	Effect of dietary calcium on urinary oxalate excretion after oxalate loads. <i>M Liebman and W Chai</i> 1453

		INTERSOCIETY COMMUNICATIONS 1558
		SUPPLEMENT
		Workshop on individual fatty acids and cardiovascular disease (bound separately)

The American Journal of Clinical Nutrition

Official journal of The American Society for Clinical Nutrition, Inc

Peer-reviewed journal with the **second highest impact factor** among 37 nutrition and dietetic journals.

International research in human clinical nutrition.

Supplements that contain the proceedings of important, international conferences on the **most timely topics**, including *trans* fatty acids, antioxidant vitamins, Mediterranean diets, and nutrient requirements.
