

CONTENTS

*L. B. Mendel Memorial Symposium on Nutrition
and Metabolism in Mental Disease*

Introduction 259
M. K. HORWITT

Lafayette B. Mendel. Companion in Research 261
ARTHUR H. SMITH

Congenital Malformations of the Central Nervous System 264
HAROLD KALTER

Cerebellar Encephalomalacia Produced by Diets Deficient in Tocopherol 275
PERCIVAL BAILEY

Problems in the Evaluation of Nutritional Status in Chronic Illness 278
DAVID R. WEIR AND HAROLD B. HOUSER

Factors in Amino Acid Metabolism Which Can Influence the Central Nervous System 287
SIDNEY UDENFRIEND

γ -Aminobutyric Acid (γ -ABA)-Vitamin B₆ Relationships in the Brain 291
EUGENE ROBERTS

Interrelationships of Oxidative and Nitrogen Metabolism with Cellular Nutrition
and Function in the Central Nervous System 308
DONALD B. TOWER

Catecholamine Metabolism and Some Functions of the Nervous System 321
THEODORE L. SOURKES

Special Department

ASCN News: Program, American Society for Clinical Nutrition, Third Annual
Meeting 330
