

The American Journal of
CLINICAL NUTRITION

VOLUME 44 NUMBER 5 NOVEMBER 1986

CONTENTS

Original Research Communications—general

- 585 Adaptation of energy metabolism of overweight women to low-energy intake, studied with whole-body calorimeters. *JO de Boer, AJH van Es, LCA Roovers, JMA van Raaij, and JGAJ Hautvast*
- 596 Validation of a field technique for the measurement of energy expenditure: factorial method versus continuous respirometry. *CA Geissler, TMO Dzumbira, and MI Noor*
- 603 Relationships of aerobic capacity and percent body fat with plasma free fatty acid following walking. *LA Kaminsky, RG Knowlton, RM Perkins III, and RK Hetzler*
- 610 Protein deficiency in premature infants receiving parenteral nutrition. *RJ Shulman, L DeStefano-Laine, R Pettit, S Rahman, and T Reed*
- 614 24-hour energy expenditure and the menstrual cycle. *P Webb*
- 620 Influence of sucrose polyester on plasma lipoproteins, and cholesterol metabolism in obese patients with and without diabetes mellitus. *SM Grundy, JV Anastasia, YA Kesaniemi, and J Abrams*
- 630 Thermic effect of medium-chain and long-chain triglycerides in man. *TB Seaton, SL Welle, MK Warenko, and RG Campbell*
- 635 Controlled evaluation of fat intake in the Mediterranean diet: comparative activities of olive oil and corn oil on plasma lipids and platelets in high-risk patients. *CR Sirtori, E Tremoli, E Gatti, G Montanari, M Sirtori, S Colli, G Gianfranceschi, P Maderna, CZ Dentone, G Testolin, and C Galli*
- 643 Iron status of predominantly lacto-ovo vegetarian East Indian immigrants to Canada: a model approach. *GS Bindra and RS Gibson*
- 653 Short-term effects of calcium carbonate, lactate, and gluconate on the calcium-parathyroid axis in normal elderly men and women. *M Goddard, G Young, and R Marcus*
- 659 Urinary and fecal excretions and absorption of a large supplement of selenium: superiority of selenate over selenite. *CD Thomson and MF Robinson*
- 664 The effect of age on plasma zinc uptake and taste acuity. *CW Bales, LC Steinman, JH Freeland-Graves, JM Stone, and RK Young*
- 670 Effect of zinc deficiency on mucosal hyperplasia following 70% bowel resection. *JA Vanderhoof, JHY Park, and CJ Grandjean*
- 678 Effect of alcohol consumption on serum concentration of 25-hydroxyvitamin D₃, retinol, and retinol-binding protein. *G-EA Bjørneboe, J Johnsen, A Bjørneboe, B Rousseau, JI Pedersen, KR Norum, J Mørland, and CA Drevon*
- 683 Indian and Pakistani immigrants have the same capacity as Caucasians to produce vitamin D in response to ultraviolet irradiation. *CW Lo, PW Paris, and MF Holick*

(continued on inside cover)

(continued from back cover)

Original Research Communications—surveys

- 686 Serum phylloquinone concentrations in a normal adult population. *LL Mummah-Schendel and JW Suttie*
- 690 Breast-feeding, weaning patterns, and the risk of xerophthalmia in Southern Malawi. *KP West, Jr, M Chirambo, J Katz, A Sommer, and the Malawi Survey Group*

Original Research Communications—methods

- 698 Determination of urinary 4-pyridoxic acid levels as 4-pyridoxic acid lactone using high-performance liquid chromatography. *JB Ubbink, WJ Serfontein, PJ Becker, and LS De Villiers*

Letter to the Editor

- 704 Recent developments in the etiology and treatment of hypertension: dietary calcium, fat, and magnesium. *BM Margetts*
- 705 Reply to letter by Margetts. *RL Weinsier and D Norris*

Book Review

- 706 Foundations of normal and therapeutic nutrition, edited by TR Lankford and PMJ Steward. Reviewed by GW Greene
