

# The American Journal of CLINICAL NUTRITION

VOLUME 85 NUMBER 4 APRIL 2007

## Editorials

- 927 Soybeans or soymilk: does it make a difference for cardiovascular protection? Does it even matter? *FM Steinberg*  
**See corresponding article on page 960.**
- 929 The importance of fish and docosahexaenoic acid in Alzheimer disease. *WE Connor and SL Connor*  
**See corresponding articles on pages 1103 and 1142.**

## Review Article

- 931 An overview of evidence for a causal relation between iron deficiency during development and deficits in cognitive or behavioral function. *JC McCann and BN Ames*

## Commentary

- 946 Consideration of betaine and one-carbon sources of  $N^5$ -methyltetrahydrofolate for use in homocystinuria and neural tube defects. *NJ Benevenga*

## Original Research Communications

### Obesity and eating disorders

- 950 Effect of the melanocortin-3 receptor C17A and G241A variants on weight loss in childhood obesity. *N Santoro, L Perrone, G Cirillo, P Raimondo, A Amato, C Brienza, and E Miraglia del Giudice*
- 954 Long-term weight losses associated with prescription of higher physical activity goals. Are higher levels of physical activity protective against weight regain? *DF Tate, RW Jeffery, NE Sherwood, and RR Wing*

### Cardiovascular disease risk

- 960 Effect of soy protein from differently processed products on cardiovascular disease risk factors and vascular endothelial function in hypercholesterolemic subjects. *NR Matthan, SM Jalbert, LM Ausman, JT Kuvin, RH Karas, and AH Lichtenstein*  
**See corresponding editorial on page 927.**

### Nutritional status, dietary intake, and body composition

- 967 Constitutional thinness and lean anorexia nervosa display opposite concentrations of peptide YY, glucagon-like peptide 1, ghrelin, and leptin. *N Germain, B Galusca, CW Le Roux, C Bossu, MA Ghatei, F Lang, SR Bloom, and B Estour*
- 972 Premenopausal overweight women do not lose bone during moderate weight loss with adequate or higher calcium intake. *CS Riedt, Y Schluskel, N von Thun, H Ambia-Sobhan, T Stahl, MP Field, RM Sherrell, and SA Shapses*
- 981 A controlled trial of reduced meal frequency without caloric restriction in healthy, normal-weight, middle-aged adults. *KS Stote, DJ Baer, K Spears, DR Paul, GK Harris, WV Rumpel, P Strycula, SS Najjar, L Ferrucci, DK Ingram, DL Longo, and MP Mattson*
- 989 Is higher dairy consumption associated with lower body weight and fewer metabolic disturbances? The Hoom Study. *MB Snijder, AAWA van der Heijden, RM van Dam, CDA Stehouwer, GJ Hiddink, G Nijpels, RJ Heine, LM Bouter, and JM Dekker*

### Carbohydrate metabolism and diabetes

- 996 Metabolic effects of amino acid mixtures and whey protein in healthy subjects: studies using glucose-equivalent drinks. *M Nilsson, JJ Holst, and IME Björck*
- 1005 Resistance training and dietary protein: effects on glucose tolerance and contents of skeletal muscle insulin signaling proteins in older persons. *HB Iglay, JP Thyfault, JW Apolzan, and WW Campbell*

### Energy and protein metabolism

- 1014 Effect on 24-h energy expenditure of a moderate-fat diet high in monounsaturated fatty acids compared with that of a low-fat, carbohydrate-rich diet: a 6-mo controlled dietary intervention trial. *LG Rasmussen, TM Larsen, PK Mortensen, A Due, and A Astrup*

(continued)

- 1023 Long-term effects of 2 energy-restricted diets differing in glycemic load on dietary adherence, body composition, and metabolism in CALERIE: a 1-y randomized controlled trial. *SK Das, CH Gilhooly, JK Golden, AG Pittas, PJ Fuss, RA Cheatham, S Tyler, M Tsay, MA McCrory, AH Lichtenstein, GE Dallal, C Dutta, MV Bhapkar, JP DeLany, E Saltzman, and SB Roberts*
- 1031 Consumption of fluid skim milk promotes greater muscle protein accretion after resistance exercise than does consumption of an isonitrogenous and isoenergetic soy-protein beverage. *SB Wilkinson, MA Tarnopolsky, MJ MacDonald, JR MacDonald, D Armstrong, and SM Phillips*

#### **Vitamins, minerals, and phytochemicals**

- 1041 Carotene-rich plant foods ingested with minimal dietary fat enhance the total-body vitamin A pool size in Filipino schoolchildren as assessed by stable-isotope-dilution methodology. *JD Ribaya-Mercado, CC Maramag, LW Tengco, GG Dolnikowski, JB Blumberg, and FS Solon*
- 1050 Isoflavonoid glucosides are deconjugated and absorbed in the small intestine of human subjects with ileostomies. *KR Walsh, SJ Haak, T Bohn, Q Tian, SJ Schwartz, and ML Failla*
- 1057 Holo-transcobalamin is an indicator of vitamin B-12 absorption in healthy adults with adequate vitamin B-12 status. *KM von Castel-Roberts, AL Morkbak, E Nexo, CA Edgemon, DR Maneval, JJ Shuster, JF Valentine, GPA Kauwell, and LB Bailey*
- 1062 High prevalence of low dietary calcium, high phytate consumption, and vitamin D deficiency in healthy south Indians. *CV Harinarayan, T Ramalakshmi, UV Prasad, D Sudhakar, PVLN Srinivasarao, KVS Sarma, and EG Tiruvenkata Kumar*
- 1068 Magnesium intake and plasma concentrations of markers of systemic inflammation and endothelial dysfunction in women. *Y Song, TY Li, RM van Dam, JE Manson, and FB Hu*

#### **Pregnancy and lactation**

- 1075 Use of stable-isotope techniques to validate infant feeding practices reported by Bangladeshi women receiving breastfeeding counseling. *SE Moore, AM Prentice, WA Coward, A Wright, EA Frongillo, AJC Fulford, AP Mander, L-Å Persson, SE Arifeen, and I Kabir*

#### **Growth, development, and pediatrics**

- 1083 Subjective Global Nutritional Assessment for children. *DJ Secker and KN Jeejeebhoy*

#### **Cancer**

- 1090 Erythrocyte fatty acids and breast cancer risk: a case-control study in Shanghai, China. *J Shannon, IB King, R Moshofsky, JW Lampe, D Li Gao, RM Ray, and DB Thomas*
- 1098 A functional 19-base pair deletion polymorphism of dihydrofolate reductase (*DHFR*) and risk of breast cancer in multivitamin users. *X Xu, MD Gammon, JG Wetmur, M Rao, MM Gaudet, SL Teitelbaum, JA Britton, AI Neugut, RM Santella, and J Chen*

#### **Nutritional epidemiology and public health**

- 1103 Plasma n-3 fatty acids and the risk of cognitive decline in older adults: the Atherosclerosis Risk in Communities Study. *MA Beydoun, JS Kaufman, JA Satia, W Rosamond, and AR Folsom*  
**See corresponding editorial on page 929.**
- 1112 The contribution of plant foods to the vitamin A supply of lactating women in Vietnam: a randomized controlled trial. *NC Khan, CE West, S de Pee, D Bosch, HD Phuong, PJM Hulshof, HH Khoi, H Verhoef, and JGAJ Hautvast*
- 1121 Body mass index and serum leptin concentration independently estimate percentage body fat in older adults. *CE Ruhl, TB Harris, J Ding, BH Goodpaster, AM Kanaya, SB Kritchevsky, EM Simonsick, FA Tylavsky, and JE Everhart for the Health ABC Study*
- 1127 Community-level micronutrient fortification of a food supplement in India: a controlled trial in preschool children aged 36-66 mo. *JL Varma, S Das, R Sankar, MG Venkatesh Mannar, FJ Levinson, and DH Hamer*
- 1134 More acidic dietary acid-base load is associated with reduced calcaneal broadband ultrasound attenuation in women but not in men: results from the EPIC-Norfolk cohort study. *AA Welch, SA Bingham, J Reeve, and KT Khaw*
- 1142 Fish consumption, n-3 fatty acids, and subsequent 5-y cognitive decline in elderly men: the Zutphen Elderly Study. *BM van Gelder, M Tijhuis, S Kalmijn, and D Kromhout*  
**See corresponding editorial on page 929.**

(continued)

- 1148 Soy isoflavones lower serum total and LDL cholesterol in humans: a meta-analysis of 11 randomized controlled trials. *K Taku, K Umegaki, Y Sato, Y Taki, K Endoh, and S Watanabe*

#### **Dietary supplements**

- 1157 Effects of soluble fiber (*Plantago ovata* husk) on plasma lipids, lipoproteins, and apolipoproteins in men with ischemic heart disease. *R Solà, G Godàs, J Ribalta, J-C Vallvé, J Girona, A Anguera, M Ostos, D Recalde, J Salazar, M Caslake, F Martín-Luján, J Salas-Salvadó, and L Masana*

#### **Letters to the Editor**

- 1164 The effect of teas on malabsorption of carbohydrates. *GD Bolden*
- 1164 Vitamin D supplementation for non-Western pregnant women: the British experience. *P Arora and RS Arora*
- 1165 Insulin secretion and capsaicin. *A Alevizos, C Mihos, and A Mariolis*

#### **1166 Erratum**

- i **ASN Announcement**
- ii **Calendar of Events**
