

The American Journal of CLINICAL NUTRITION

VOLUME 86 NUMBER 5 NOVEMBER 2007

Editorials

- 1257 Diet and leukocytes. *CW Smith*
See corresponding article on page 1286.
- 1259 Rethinking brain food. *IH Rosenberg*
See corresponding articles on pages 1470 and 1479.

Commentary

- 1261 Building the bridges to bioinformatics in nutrition research. *DG Lemay, AM Zivkovic, and JB German*

Original Research Communications

Lipids

- 1270 Macrophage cholesterol efflux elicited by human total plasma and by HDL subfractions is not affected by different types of dietary fatty acids. *V Buonacorso, ER Nakandakare, VS Nunes, M Passarelli, ECR Quintão, and AMP Lottenberg*
- 1278 Serum phospholipid n-3 long-chain polyunsaturated fatty acids and physical and mental health in a population-based survey of New Zealand adolescents and adults. *FL Crowe, CM Skeaff, TJ Green, and AR Gray*
- 1286 A high-fat meal induces low-grade endotoxemia: evidence of a novel mechanism of postprandial inflammation. *C Erridge, T Attina, CM Spickett, and DJ Webb*
See corresponding editorial on page 1257.

Cardiovascular disease risk

- 1293 Effects of long-term exercise and diet intervention on plasma adipokine concentrations. *MH Rokling-Andersen, JE Reseland, MB Veierød, SA Anderssen, DR Jacobs Jr, P Urdal, J-O Jansson, and CA Drevon*

Nutritional status, dietary intake, and body composition

- 1302 Cobalamin and folate status in infants and young children in a low-to-middle income community in India. *S Taneja, N Bhandari, TA Strand, H Sommerfelt, H Refsum, PM Ueland, J Schneede, R Bahl, and MK Bhan*
- 1310 Serum retinol-binding protein 4 concentrations in response to short-term overfeeding in normal-weight, overweight, and obese men. *J Shea, E Randell, S Vasdev, PP Wang, B Roebathan, and G Sun*
- 1316 Intramyocellular lipid content is lower with a low-fat diet than with high-fat diets, but that may not be relevant for health. *M-P St-Onge, BR Newcomer, S Buchthal, I Aban, DB Allison, A Bosarge, and B Gower*
- 1323 Synthesis of long-chain polyunsaturated fatty acids in preterm newborns fed formula with long-chain polyunsaturated fatty acids. *VP Carnielli, M Simonato, G Verlato, I Lujendijk, M De Curtis, PJJ Sauer, and PE Cogo*
- 1331 Associations of dietary sugar and glycemic index with adiposity and insulin dynamics in overweight Latino youth. *JN Davis, KE Alexander, EE Ventura, LA Kelly, CJ Lane, CE Byrd-Williams, CM Toledo-Corral, CK Roberts, D Spruijt-Metz, MJ Weigensberg, and MI Goran*
- 1339 Decreased muscle mass and increased central adiposity are independently related to mortality in older men. *SG Wannamethee, AG Shaper, L Lennon, and PH Whincup*

Carbohydrate metabolism and diabetes

- 1347 Microsatellite polymorphism in the heme oxygenase-1 gene promoter is associated with iron status in persons with type 2 diabetes mellitus. *M Arredondo, D Jorquera, E Carrasco, C Albala, and E Hertrampf*
- 1354 Effects of glucose-to-fructose ratios in solutions on subjective satiety, food intake, and satiety hormones in young men. *T Akhavan and GH Anderson*
- 1364 Effects of protein on glycemic and incretin responses and gastric emptying after oral glucose in healthy subjects. *A Karamanlis, R Chaikomin, S Doran, M Bellon, FD Bartholomeusz, JM Wishart, KL Jones, M Horowitz, and CK Rayner*

(continued)

Vitamins, minerals, and phytochemicals

- 1369 Proteomic biomarkers of peripheral blood mononuclear cells obtained from postmenopausal women undergoing an intervention with soy isoflavones. *D Fuchs, K Vafeiadou, WL Hall, H Daniel, CM Williams, JH Schroot, and U Wenzel*
- 1376 Serum 25-hydroxyvitamin D in a West African population of tuberculosis patients and unmatched healthy controls. *C Wejse, R Olesen, P Rabna, P Kaestel, P Gustafson, P Aaby, PL Andersen, H Glerup, and M Sodemann*
- 1384 Low vitamin B-12 status and risk of cognitive decline in older adults. *R Clarke, J Birks, E Nexø, PM Ueland, J Schneede, J Scott, A Molloy, and J Grimley Evans*
- 1392 Effect of high-dose α -tocopherol supplementation on biomarkers of oxidative stress and inflammation and carotid atherosclerosis in patients with coronary artery disease. *S Devaraj, R Tang, B Adams-Huet, A Harris, T Seenivasan, JA de Lemos, and I Jialal*
- 1399 Associations of diet, supplement use, and ultraviolet B radiation exposure with vitamin D status in Swedish women during winter. *A Burgaz, A Åkesson, A Öster, K Michaëlsson, and A Wolk*
- 1405 Effect of a voluntary food fortification policy on folate, related B vitamin status, and homocysteine in healthy adults. *L Hoey, H McNulty, N Askin, A Dunne, M Ward, K Pentieva, JJ Strain, AM Molloy, CA Flynn, and JM Scott*
- 1414 Calculation of red blood cell folate steady state conditions and elimination kinetics after daily supplementation with various folate forms and doses in women of childbearing age. *K Pietrzik, Y Lamers, S Brämsswig, and R Prinz-Langenohl*
- 1420 Higher serum vitamin D concentrations are associated with longer leukocyte telomere length in women. *JB Richards, AM Valdes, JP Gardner, D Paximadas, M Kimura, A Nessa, X Lu, GL Surdulescu, R Swaminathan, TD Spector, and A Aviv*

Pregnancy and lactation

- 1426 Effects of galactooligosaccharide and long-chain fructooligosaccharide supplementation during pregnancy on maternal and neonatal microbiota and immunity—a randomized, double-blind, placebo-controlled study. *R Shadid, M Haarman, J Knol, W Theis, C Beermann, D Rjosk-Dendorfer, DJ Schendel, BV Koletzko, and S Krauss-Etschmann*

Growth, development, and pediatrics

- 1438 Plasma arginine and citrulline concentrations in critically ill children: strong relation with inflammation. *DA van Waardenburg, CT de Betue, YC Luiking, M Engel, and NE Deutz*

Immunity

- 1445 Associations between healthy eating patterns and immune function or inflammation in overweight or obese postmenopausal women. *A Boynton, ML Neuhauser, MH Wener, B Wood, B Sorensen, Z Chen-Levy, EA Kirk, Y Yasui, K LaCroix, A McTiernan, and CM Ulrich*

Cancer

- 1456 Lycopene supplementation elevates circulating insulin-like growth factor-binding protein-1 and -2 concentrations in persons at greater risk of colorectal cancer. *A Vrieling, DW Voskuil, JM Bonfrer, CM Korse, J van Doorn, A Cats, AC Depla, R Timmer, BJ Witteman, FE van Leeuwen, LJ van't Veer, MA Rookus, and E Kampman*

Alcohol

- 1463 Down-regulation of adhesion molecules and other inflammatory biomarkers after moderate wine consumption in healthy women: a randomized trial. *E Sacanella, M Vázquez-Agell, M Pau Mena, E Antúnez, J Fernández-Solá, JM Nicolás, RM Lamuela-Raventós, E Ros, and R Estruch*

Nutritional epidemiology and public health

- 1470 Cognitive performance among the elderly and dietary fish intake: the Hordaland Health Study. *E Nurk, CA Drevon, H Refsum, K Solvoll, SE Vollset, O Nygård, HA Nygaard, K Engedal, GS Tell, and AD Smith*
See corresponding editorial on page 1259.
- 1479 n-3 Fatty acid proportions in plasma and cognitive performance in older adults. *C Dullemeijer, J Durga, IA Brouwer, O van de Rest, FJ Kok, R-JM Brummer, MPJ van Boxtel, and P Verhoef*
See corresponding editorial on page 1259.
- 1486 Prospective study of dietary pattern and risk of Parkinson disease. *X Gao, H Chen, TT Fung, G Logroscino, MA Schwarzschild, FB Hu, and A Ascherio*
- 1495 Dietary glycemic load, added sugars, and carbohydrates as risk factors for pancreatic cancer: the Multiethnic Cohort Study. *U Nöthlings, SP Murphy, LR Wilkens, BE Henderson, and LN Kolonel*

(continued)

- 1502 Carbohydrate nutrition, glycemic index, and the 10-y incidence of cataract. *J Tan, JJ Wang, V Flood, S Kaushik, A Barclay, J Brand-Miller, and P Mitchell*
- 1509 Substantial intergenerational increases in body mass index are not explained by the fetal overnutrition hypothesis: the Cardiovascular Risk in Young Finns Study. *M Kivimäki, DA Lawlor, G Davey Smith, M Elovainio, M Jokela, L Keltikangas-Järvinen, JSA Viikari, and OT Raitakari*

Gene-nutrient interactions

- 1515 Fasting induces changes in peripheral blood mononuclear cell gene expression profiles related to increases in fatty acid β -oxidation: functional role of peroxisome proliferator-activated receptor α in human peripheral blood mononuclear cells. *M Bouwens, LA Afman, and M Müller*
- 1524 Interaction between dietary fat intake and the cholesterol ester transfer protein *Taq1B* polymorphism in relation to HDL-cholesterol concentrations among US diabetic men. *TY Li, C Zhang, FW Asselbergs, L Qi, E Rimm, DJ Hunter, and FB Hu*

Bone metabolism

- 1530 Is adiposity advantageous for bone strength? A peripheral quantitative computed tomography study in late adolescent females. *NK Pollock, EM Laing, CA Baile, MW Hamrick, DB Hall, and RD Lewis*

Dietary supplements

- 1539 Chronic green tea extract supplementation reduces hemodialysis-enhanced production of hydrogen peroxide and hypochlorous acid, atherosclerotic factors, and proinflammatory cytokines. *S-P Hsu, M-S Wu, C-C Yang, K-C Huang, S-Y Liou, S-M Hsu, and C-T Chien*

Letters to the Editor

- 1548 Fruit and vegetable intake and the metabolic syndrome. *D Sluik, LM Oude Griep, and JM Geleijnse*
- 1548 Reply to D Sluik et al. *A Esmailzadeh and L Azadbakht*
- 1549 Dietary vitamin D and decreases in cancer rates: Canada as the national experiment. *MM Sood and AR Sood*
- 1549 Reply to MM Sood and AR Sood. *RP Heaney and JM Lappe*
- 1550 Is des-acyl ghrelin contributing to uremic anorexia? *A Molfino, A Laviano, F Rossi Fanelli, M Muscaritoli, and MG Chiappini*
- 1551 Reply to A Molfino et al. *JJ Carrero, O Heimbürger, P Stenvinkel, and B Lindholm*

Book Review

- 1554 *Appetite and Body Weight: Integrative Systems and the Development of Anti-Obesity Drugs*, edited by Tim C Kirkham and Steven J Cooper. *Reviewed by DH Bessesen*

Supplement: Keeping the Young-Elderly Healthy

- 1559S Introduction to the symposium: Keeping the Young-Elderly Healthy. *RS Rivlin and RS Blacklow*
- 1560S Actuarially speaking: an overview of life expectancy. What can we anticipate? *RS Blacklow*
- 1563S Homocysteine, vitamins, and vascular disease prevention. *KS McCully*
- 1569S Prevention of atherosclerosis progression in asymptomatic healthy elderly. *RS Lees*
- 1572S Keeping the young-elderly healthy: is it too late to improve our health through nutrition? *RS Rivlin*
